SMM Interview Questions for Freshers

1. What is SMM, or social media marketing?

Using social media platforms to gain recognition, develop your brand, boost website traffic, and boost sales is known as social media marketing. To simply accomplish this, brands and people post interesting material on

their social media platforms, interact with their followers, and launch social media campaigns.

2. What are the five pillars of SMM?

The five top pillars of social media marketing are as follows:

- Strategy making
- Planning and publishing
- User Engagement
- Analytics
- Advertising

3. Which measures are essential for evaluating social media ROI?

Conversions, lead generation, brand reach, and engagement. These are the key indicators of return on investment (ROI) for social media. Social media managers feel at ease discussing particular terms in Google Analytics, the tools they employ, and the information available on each platform.

4. How does social media affect marketing?

Brands must employ social media marketing as one of their main marketing strategies to connect with their target audience, win over new users, maintain brand loyalty from current customers, address product issues, respond to inquiries, and more.

5. How is SMM used?

Marketing that uses social media platforms like Facebook, Instagram, and TikTok to promote brands, build target audiences, increase website traffic, and boost sales is known as social media marketing, or SMM.

6. Explain SMM tools.

Software programs or platforms known as social media marketing tools, or SMM tools, assist companies in tracking, managing, and maximizing their social media presence. They provide everything from video editing and graphic design to post-scheduling, analytics, and audience behavior monitoring.

8. Is SMM better than SEO?

SEO makes your website more visible to search engines by optimizing its structure, while SMM leverages social media to build communities and strengthen your brand's voice. They form a mutually beneficial

partnership, with each having a distinct role to perform in arranging the digital symphony.

9. What role does customer service play in SMM?

Customer service on social media platforms is becoming more and more crucial for companies that have a busy online presence.

Social media management consists of two distinct aspects: posting on social media and providing assistance. Each calls for a distinct strategy and, in rare cases, a different channel.

They ought to acknowledge this fact first. Second, they ought to be aware of how to handle any kind of interaction, including those that involve praise, criticism, or mentions.

10. Why is YouTube relevant to marketing?

YouTube, the second-most popular search engine, is the King of the Jungle as the number of videos consumed grows daily. Every day, almost 3 billion videos are viewed on it.

YouTube is one of the best sites to check out if you need to market videos. Your video will be published on the YouTube homepage if it becomes really famous, which will increase its reach even more.

16. What marketing uses are there for LinkedIn?

One of the best social networking sites for self- or business-promotion is LinkedIn. Regularly posting interesting information on your corporate page might grow your following. Rich information has been shown to be quite beneficial and will aid in raising the interaction rate.

17. How would you promote tweets or postings on Twitter?

To maximize tweets through excellent practices:

- Find out when posting on Twitter is most effective.
- Twitter sponsored advertising is a useful tool for promptly connecting with our intended audiences.
- Make contact and establish a connection with influencers. Attempt to participate in a cross-promotional endeavor.
- Plan your tweets and keep everything organized by using a calendar.
- To boost retweets, use GIFs, photos, and links.
- To encourage user interaction with your material, use Twitter polls.
- To gain more followers, share quality information from the internet.
- To increase the post's reach and interaction rate, include video.
- Engage in thought-provoking conversations on Twitter to raise awareness of your brand.
- Make appropriate use of hashtags. Just enough, but the appropriate ones to increase reach.

18. How would you divide up our budget for social media?

It is important to talk about specific measures and KPIs, as well as which percentages belong where. For instance, a respectable portion might be devoted to Facebook ads; a medium-sized business may invest up to \$500 in sponsored advertising each month. For a good return on investment, human resources, social media technologies, and training are all critical.

19. Explain Facebook EdgeRank

Facebook developed the Facebook EdgeRank algorithm to control what users see in their news feed. Each Facebook post is given a value based on a number of different characteristics.

Facebook EdgeRank enables users to find content that they are more likely to enjoy, which in turn encourages them to spend more time and visit Facebook more frequently.

$$\text{Facebook EdgeRank} = \varepsilon = U \times W \times D$$

U – Affinity (The score between the viewer and the edge creator)

W – Weight (The weight for this edge type: Comment, Likes, Shares, etc)

D – Time Decay (The decay factor based on how long ago the edge was created)

20. How does SMM help SEO?

- Search engines index content from social media platforms. Search results display social media profiles in order.
- People search for information about brands and companies using social media platforms as search engines. Thus, improving brand awareness requires having a strong social media presence.
- By making your blog posts and website social media shareable, you may expand their audience and boost your social media traffic.
- Additionally, having more links and traffic naturally draws the attention of search engines.
